

Monthly Newsletter

March 2016

WELCOME

To our monthly newsletter about construction at Vista. This has been designed to keep you updated about our key activities on site and within the community.

Please visit our website for updates:

Berkeley seek to minimise disruption during construction works as much as possible. This newsletter will be emailed to all interested surrounding residents to provide regular updates and key information on the Vista project.

Block C is now at Level 15 and the roof has been cast.

Block L is progressing and is at Level 4.

Development Information

The Vista Development comprises the delivery of approximately 452 units over two buildings, Block C at the North of the Site and Block L at the South, along with ground floor retail and associated car parking.

General Site Activities Information

- Tower Crane (TC1) will be taken down over the weekend of 25th/26th/27th March. This will involve partial closure of Queenstown Road.
- Network Rail will be lifting track onto the Railway line from the roundabout at the bottom of Sopwith Way. This will involve a mobile crane. Works will take place at night 21st to 24th March, then 24 hours a day over the Easter weekend. These works are not connected to the Vista project.
- We have been informed by the utility providers that the following works are taking place in March in Sopwith Way:
 - Electrical connection.
 - Gas connection.
 - Water connection.
- Wandsworth have agreed that vehicles can unload from Sopwith Way and South Road.
- In order to help progress the Vista project Wandsworth Council have agreed to allow Berkeley Homes to load out materials from 6pm to 8pm. Managers will be on-site supervising these works and we ask that if you have any issues with these activities please contact us on the numbers provided.
- We will be removing our pedestrian gantry on the corner of Queenstown Road and Sopwith Way on 12th/13th March.
- We are hoping to use the area under the Network Rail viaduct alongside Sopwith Way to store materials. This will help with the logistics of the project.
